# Welcome to the Undergraduate Program in Psychology

Our undergraduate program is built on flexibility and breadth. It is flexible because undergraduate students have the option of obtaining a bachelor of arts (BA) or a bachelor of science (BSc) degree in psychology, a 90-credit or 120-credit Honours degree (double major, or Major/Minor) or a 120-credit Specialized Honours degree. In addition, students can complete their degree requirements during the fall/winter or summer terms by taking courses during the day or in the evening. We offer a breadth of courses; students may therefore choose to focus on specific areas of interest such as social, developmental, neuroscience, cognitive, quantitative or abnormal psychology, or follow a more generalized program that covers a wide variety of aspects of the discipline.

The BA Psychology program exposes students to a full range of psychological concepts and applications. The BSc option adds a focus on the physical and life sciences, including chemistry, physics, biology, and computer science, within a full range of discipline-specific courses.

Depending on the program/course choices, a Student can obtain excellent preparation for further postgraduate studies in psychology, law or medicine. Similarly, psychology can prepare students for many diverse career options in education, business, social services, public relations etc.

# How to Use This Supplemental Calendar

This supplemental calendar has been produced to remind students of important details contained in the University Calendar, the official University document ([calendars.registrar.yorku.ca](http://calendars.registrar.yorku.ca)) and to provide program information specific to psychology. The online version of the Department of Psychology Supplemental Calendar may be accessed through the department website ([psyc.info.yorku.ca](http://psyc.info.yorku.ca)). Additional information about Faculty of Health programs and procedures may be found in the Faculty of Health Handbook for New Students [health.info.yorku.ca/current-student-information/student-handbooks-and-enrolment-guides/](http://health.info.yorku.ca/current-student-information/student-handbooks-and-enrolment-guides/)

This supplemental calendar is divided into five sections.

**Part A** provides an overview of general program information, and information about student advising, and various psychology-specific scholarships, prizes and bursaries awarded to students. In addition, the calendar provides Department of Psychology-specific requirements that include, for example, a description of rules about prerequisites.

**Part B** describes degree requirements as of September 2014, for the 120-credit BA and BSc in psychology (e.g. Specialized Honours, Honours, Honours Major/Minor), and for the 90-credit BA and BSc. This section also includes programs-of-study worksheets. *If you entered before 2009, have transfer credits, are reactivating your status to complete a degree or are confused about your degree requirements, contact the Psychology Undergraduate Office for an advising appointment. (For details, see "Psychology Advising Appointments," page 4)*

**Part C** describes important University Policies concerning such matters as academic integrity and the petition process

**Part D** provides detailed descriptions of the courses offered this year. The course information contained in this supplemental calendar is up to date as of August 5, 2016.

**Part E** provides information about student resources and student life on campus.

## **PART A: PROGRAM INFORMATION AND ADVISING**

### **Seek Advice First**

Your first advising experience as a new student at York University will be through the **YU-start** program, York University's new on-line advising and enrolment system. Throughout your years as an undergraduate at York University, advising services are available to you from several sources and you are strongly encouraged to take advantage of these services.

### **OSAS**

For information on general degree requirements or University-wide regulations, including general education requirements for a BA or BSc degree or what is involved in the petitions process, the Faculty of Health Office of Student and Academic Services (HH OSAS) is the place to go. The HH OSAS office is in Room 235 Calumet College. To make an appointment to see an OSAS advisor, call 416-736-5299, or e-mail [hhadvise@yorku.ca](mailto:hhadvise@yorku.ca). For more information about OSAS advising, see [health.info.yorku.ca/current-student-information/](http://health.info.yorku.ca/current-student-information/)

## **Psychology Undergraduate office**

For advising and help with issues related specifically to Psychology programs and courses, the Psychology Undergraduate Office should be your first stop.

The staff in the Psychology Undergraduate Office can help students with a variety of issues including difficulty with enrolling in Psychology courses. The office staff can also provide information on topics such as psychology degree requirements and enrolling in an independent study course. If office staff members do not have the answer, they will direct the student to the correct person or office.

For more complex issues related to a student's individual program, the staff may arrange an appointment for you to see the Psychology Adviser or the Undergraduate Administrative Assistant.

## **Psychology Advising Appointments**

A student can seek advice from many different people including course directors, other faculty, staff etc. However, a huge number of courses are offered and more than 80 full-time faculty members conduct research and teach in the department. As we know our degree requirements, course content and course directors better than anyone else, a student should book an advising appointment with the Academic Adviser in the Department of Psychology Undergraduate Office. Advising appointments are available to any student enrolled in a Psychology program. Students are encouraged to see the Academic Adviser prior to each academic year to be certain they are making wise course choices that will allow them to graduate on schedule. Our peak periods (August to Sept, January, and May to June), please try

to arrange the appointment earlier to avoid any disappointments

The Department of Psychology, Undergraduate Office is located in Room 291 of the Behavioural Science Building (BSB), and can be contacted by calling 416-736-5117 during our regular office hours, there are no drop-ins for advising. You can also send your query by e-mail to [psyc@yorku.ca](mailto:psyc@yorku.ca).

## The Psychology Website

Information about all aspects of the Undergraduate Program in Psychology may be found on the Psychology Department website: [psyc.info.yorku.ca/](http://psyc.info.yorku.ca/). Use the drop-down “Undergraduate Program” menu to find links to information about course selection at each stage of the program, all course outlines, a link to the electronic Degree Progress Report and much more. The website also advertises upcoming events in the Psychology Department, and separate sections are devoted to the Specialized Honours Program and to the York-Seneca Rehabilitation Services Certificate Program.

## Information Sessions and Workshops

### 1. Course Selection Sessions

Information sessions are given in March and May for students completing Introduction to Psychology (PSYC 1010 6.00) during the fall/winter term and planning to pursue a degree in Psychology. These sessions focus on course selection for the second year of study and planning ahead to meet the upper year requirements of the various programs in Psychology. Information about sessions will be posted on the Advising Board between rooms 291 and 292 BSB, and on the Psychology website

[psyc.info.yorku.ca](http://psyc.info.yorku.ca). Similar information sessions are offered for students entering the 3<sup>rd</sup> and 4<sup>th</sup> years of the Psychology program.

### 2. Undergraduate Workshops

Throughout the year, workshops are organized by the Undergraduate Director on a range of topics relevant to students pursuing undergraduate degrees in Psychology such as how to find opportunities for research experience, how to plan ahead for graduate school, and career paths after a Psychology degree. These workshops are advertised on the Psychology website [psyc.info.yorku.ca](http://psyc.info.yorku.ca), by posters in the Psychology Department, and by email through the Psychology Undergraduate listserv. The listserv includes all students registered as Psychology majors. To be added to the listserv, send your request by email to [psyc@yorku.ca](mailto:psyc@yorku.ca) including your full name and email address.

### 3. Information Sessions for 4th Year Honours Students

Another source of advice is through the information sessions offered to all Honours students. The thesis coordinator offers a series of open information sessions or workshops throughout the year. These cover topics helpful to thesis students, focused on two primary areas: general professional and career development (e.g., how to prepare a CV, applying to grad school, scholarship applications) and topics specifically related to the thesis (e.g., completing ethics documentation, getting started with the Introduction, conducting literature searches, conducting data analysis, organizing sections within the thesis, preparing a poster). A schedule of workshops/information sessions is posted on the course Moodle site.

## Finding People in Psychology

The office locations and telephone numbers for course directors, secretaries and teaching assistants are posted on the bulletin board outside the Psychology Undergraduate Office (291 BSB) or online here: [psyc.info.yorku.ca/contact-us](http://psyc.info.yorku.ca/contact-us)

## Faculty Research Interests

A list of faculty research interests can be downloaded from the Psychology website [psyc.info.yorku.ca/honours-students](http://psyc.info.yorku.ca/honours-students). To find faculty members doing research in a particular area of Psychology go to [psyc.info.yorku.ca/research](http://psyc.info.yorku.ca/research) and click on any of the core research areas. To find out if a particular faculty member is taking on honours students, work-study students or laboratory volunteers, check their profile by selecting Faculty Directory under Contact Us on the Psychology website [psyc.info.yorku.ca](http://psyc.info.yorku.ca).

## Declaring Psychology as a Major or Minor

Students who want to declare Psychology as a major or minor must complete a Program Change request online. See [yorku.ca/roweb/program/change](http://yorku.ca/roweb/program/change) for details about deadlines and how to submit this request. If you change from another program into Psychology, book an advising appointment with the Psychology Advisor as soon as possible to review our program and make sure you are on track.

**NOTE:** students cannot automatically change their major to a Specialized Honours degree in psychology; students must apply to this program in May after completing 53 credits. (Please see information about the Specialized Honours program online (including application) at

[psyc.info.yorku.ca](http://psyc.info.yorku.ca). Choose the Specialized Honours menu.

## General Program Eligibility

To be eligible to graduate in any BA/BSc program, students must successfully complete at least 90 credits with a minimum overall CGPA of 4.00 (C) or higher.

To proceed in each year of an Honours BA/BSc program, students must have a minimum cumulative credit-weighted GPA over all courses. Students whose CGPA falls below 5.00 during the course of their studies may proceed in an Honours program, on warning, provided that they meet the minimum CGPA requirements below:

YEAR LEVEL	CREDITS EARNED	CGPA REQUIREMENTS
Year 1	0-23 earned credits	4.00
Year 2	24-53 earned credits	4.25
Year 3	54-83 earned credits	4.80
Year 4	84 earned credits	5.00

To be eligible to graduate in an Honours BA/BSc program, students must successfully complete at least 120 credits with a minimum overall CGPA of 5.00 (C+) or higher.

## Degree Requirements and/or Restrictions

Students are responsible for the accuracy of their registration records, and for ensuring that the courses they have chosen meet the

requirements for graduation. A failure to fulfil the degree requirements will result in a declaration of ineligibility to graduate, even if the requisite number of credits (90 or 120) has been completed. Students will remain ineligible until such time as the missing requirements are fulfilled.

## Access to Courses

Students must complete PSYC 1010 6.00 with a minimum grade of C (60%) in order to be eligible to enrol in upper level Psychology courses (other than PSYC 2021 3.00 or PSYC 2020 6.00, which can be taken concurrently).

## Enforcing Prerequisites

In all courses you will find it impossible to register if you do not have the prerequisites for the course. Transfer students may find that they have to have their prerequisites confirmed by the department in order to register in Psychology courses. However, even if you are successful in registering (in some cases, lack of prerequisites cannot be detected at the time of enrolment), this does **not** mean you will be able to remain in a course for which you do not have the prerequisites. As stated in the Student Rights and Responsibilities document, it is your responsibility to register in courses for which you are eligible. Students found to be lacking a stated prerequisite may be removed from a course at any time, and if this happens after the deadline for course change, your tuition fee for the course will not be refunded. It is very important to pay attention to prerequisites and to plan your courses a year or two in advance. Note that **NO EXCEPTIONS** will be made.

## Enrolment Access to Courses

Enrolment is controlled through specific time windows. Your enrolment window each term

is determined by the number of credits you have successfully completed. To determine when you can enrol for the upcoming term, go to [registrar.yorku.ca/enrol/guide](http://registrar.yorku.ca/enrol/guide)

In many courses, some or all spaces are reserved initially for students in certain years, majors and programs. Therefore, even if you have the necessary prerequisites for a course, you may not be able to register in the course when your window opens. However, course access specifications are reviewed periodically, from the time enrolment access begins until the final deadline date to enrol. Space is then released to other categories of students, if space is available, so keep trying if a course outside of Psychology is not available when you first try. Psychology majors/minors who have difficulty enrolling in Psychology courses should contact the Undergraduate Office as soon as possible for assistance. For contact information, see the directory at the back of this supplemental calendar.

### IMPORTANT NOTES:

- IF A STUDENT RECEIVED TRANSFER CREDITS FOR PSYCHOLOGY COURSE(S) PLEASE CONTACT THE DEPARTMENT OF PSYCHOLOGY FOR PERMISSION TO ENROL IN UPPER LEVEL COURSES.
- ENROLLING ON THE DAY AND AT THE TIME OF YOUR ASSIGNED ENROLMENT ACCESS WINDOW IS TO YOUR ADVANTAGE.

## Repeating a Course

A student may repeat a passed or failed course twice for academic degree or certificate credit, for a maximum of three (3) attempts at a course.

You may not register for a course for a fourth time without petitioning or while a petition is in progress;

This is especially important in the case of required courses – courses that must be completed in order to receive a degree in Psychology. These include:

- Introduction to Psychology (PSYC 1010)
- Statistics
  - For 90 credit degree (PSYC 2021 3.0)
  - For 120 credit degree (PSYC 2020 6.0 or PSYC 2021 3.0 and PSYC 2022 3.0)
- Research Methods (PSYC 2030 3.0).

If you are in danger of failing one of these courses for the third time, you are strongly advised to drop the course before the final drop date. If you fail one of these courses three times, this could prevent you from graduating in Psychology. It is very important that you make an appointment to meet with the psychology Undergraduate Program Assistant (UPA) to discuss your options if you find yourself in this situation.

For more information on repeating passed or failed courses, visit [secretariat-policies.info.yorku.ca/policies/repeating-passed-or-failed-courses-for-academic-credit-policy](https://secretariat-policies.info.yorku.ca/policies/repeating-passed-or-failed-courses-for-academic-credit-policy)

## Total Number of Courses Permitted

A student is limited to enrolling in the equivalent of 36 credits per academic year, September to April. Students may take a maximum of 15 credits in the summer session. However, students should be aware that summer courses are very intensive as they cover the same material as fall/winter courses typically in half the number of weeks, so students are advised not to take more than two courses in any one summer session and *no more than one course* if it is a course you are repeating due to a poor grade.

## Upper-level Course Prerequisites

**Students are responsible for ensuring that they have completed the necessary prerequisites for their courses.** If you try to enrol in a course with prerequisites, the online enrolment system will warn you that there are prerequisites but may not prevent you from enrolling. **This does not mean that you can take the course.** It is your responsibility to be certain that you have successfully completed all prerequisites for the courses you enrol in. Students found to be ineligible for a course **will be removed** from it at any time, and will receive no adjustment to their fees. **The decision cannot be appealed.** If students find that they do not have the course prerequisites, it is in their best interests to drop the course well before the drop date. Prompt attention to this matter will help students protect their academic record. Lack of prerequisites **may not** be used as a basis of a petition to drop the course after the final drop date. Detailed information about prerequisites for Psychology courses may be found on the Psychology website under Undergraduate Program Years 2 & 3: [psyc.info.yorku.ca/major-in-psychology-years-2-3](https://psyc.info.yorku.ca/major-in-psychology-years-2-3)

To enrol in 4000-level Psychology courses, students must satisfy the following:

- Students must be in an Honours program, have Honours standing, and have completed 84 credits (not including Faculty of Education courses).
- 4000-level Psychology courses require the following general prerequisites or substitutes:
  - PSYC 1010 6.00 with a minimum grade of C.
  - PSYC 2030 3.00.
  - PSYC 2021 3.00 or PSYC 2020 6.00 or substitutes.
- Before enrolling in PSYC 4000 6.00, PSYC 4001 6.00, PSYC 4170 6.00, or

PSYC 4175 6.00 students *must have completed* a full year of statistics, i.e. PSYC 2020 6.00, PSYC 2021 3.00 AND PSYC 2022 3.00 or substitutions.

- Before enrolling in PSYC 4001 6.00, students must complete PSYC 3010 3.00 or a substitute course.
- Most 4000-level and some 3000-level psychology courses require completion of additional 2000-level or 3000-level specific course prerequisites. Students must make sure they have completed the other listed prerequisites, or their enrolment in the course will be cancelled and they may lose their tuition fee. To determine what these other course prerequisites are, please see the 3000- and 4000-level courses in this supplemental calendar and the prerequisite maps on the Psychology Website [psyc.info.yorku.ca/major-in-psychology-years-2-3](http://psyc.info.yorku.ca/major-in-psychology-years-2-3)

Some students may have completed slightly fewer than the required 84 credits and still intend to graduate by summer 2017. Such students may wish to enrol in fourth-year courses for 2016 to 2017, but will be denied access to 4000-level psychology courses when they use the online enrolment system. These students should contact the Psychology Undergraduate Office in 291 BSB, for instructions.

## Course Credit Exclusions

Credit will not be given for a second course deemed to be sufficiently similar in content to a previously taken course that it constitutes “course credit exclusion.” Most course credit exclusions (CCEs) are listed within individual course descriptions in the calendar. Just because two courses are CCEs does not mean they are equivalent and therefore they do not necessarily serve as substitutes in fulfilling degree or program requirements.

Generally, statistics, economics and mathematics courses (to name only a few)

often have course credit exclusions. In addition, many of our courses have CCEs with Glendon College psychology courses. Glendon psychology course numbers have the GL acronym instead of HH in front of PSYC, and, although they are considered CCEs, they do not necessarily have the same course numbers as ours.

## Limitations on Courses from Other Faculties

Credit for non-Faculty of Health courses, e.g. School of Arts, Media, Performance & Design (AMPD), Faculty of Science (SC) and Faculty Liberal Arts and Professional Studies (LAPS) courses, taken toward the BA degree will be allowed in accordance with limitations described in the Undergraduate Calendar. Please refer to the calendar at [calendars.registrar.yorku.ca](http://calendars.registrar.yorku.ca) for more details, or consult the Undergraduate Psychology Office.

## Taking Courses at Other Universities

The residency requirement for all York BA and BSc degrees is that a minimum of 30 credits and at least half (50%) of the course credits required in your major/minor must be taken at York University.

Sometimes students wish to take one or more courses elsewhere, for example as part of an international Exchange Program or on a Letter of Permission (LOP) in order, for example, to complete a prerequisite over the summer.

### Letter of Permission (LOP)

For more information and application forms, go to: [registrar.yorku.ca/enrol/lop](http://registrar.yorku.ca/enrol/lop)

### Exchange Programs

For more information visit York International's website: [yorkinternational.yorku.ca/go-global](http://yorkinternational.yorku.ca/go-global)

### **York-Ryerson Exchange**

This program allows eligible York students in Year 2 or above to take a selection of Ryerson courses without an LOP; these courses will appear on your transcript. For more information see

[ryersonyorkexchange.ca](http://ryersonyorkexchange.ca)

**Read all this material very carefully before you take any course at another university.**

### **Information for Transfer Students**

Many Psychology students transfer into our program from other universities, other faculties at York or other programs within the Faculty of Health. Some have already completed a degree and wish to complete a second degree. In all cases, it is very important to be aware, from the beginning of your time as a Psychology student, of the degree requirements of our programs, and the number and nature of the credits you may bring with you from your earlier studies. You should meet with the Psychology Department undergraduate advisor as early as possible in your first year in the Psychology program to make sure you are on track (call 416-736-5117 to book an appointment).

#### **Transfers from Other Universities:**

When you are admitted to York, your transcript from your previous university will be assessed by the Registrar's Office and you will be credited a certain number of credits based on your earlier work. It is very important to find out right away which SPECIFIC program credits or waivers you are receiving, as well as the total number of credits. This is important both for your program requirements (i.e. Psychology courses) and also for other degree requirements (e.g. General Education requirements for all students, 1000 level Science requirements for BSc students).

Here we will deal *only* with the program-specific requirements. Be sure to check through the Faculty of Health Advising Office (OSAS) for other specific waivers (e.g., General Education courses) and keep a written record of this.

*Psychology requirements:* The first requirement for all transfer students is 6 credits of Introductory Psychology with a grade of C.

If you have not met this requirement, you must take PSYC 1010 6.0 in your first year at York, before taking any other Psychology courses.

It is possible to take Statistics (2020 6.0 or 2021 3.0) at the same time, but PSYC 1010 is a required prerequisite for all other Psychology courses. If you took only a 3 credit Introductory Psychology course elsewhere, you must request a reassessment of transfer credits through the Office of Admissions.

If the course you took is not sufficiently broadly based, you will have to complete PSYC 1010. Do not assume you will be okay – this will catch up with you! You do not want to be prevented from graduating while you take Introductory Psychology in your final year!

Other Psychology courses taken at other institutions are evaluated for their equivalence to our courses through the Registrar's Office.

It is very important to have this done as soon as you move to York. Typically, courses from Canadian Universities are accepted as equivalents to York courses with similar names and content, but the level at which they are credited must be established, so it is important that this is taken care of when you enter the program and that you keep a written record of these decisions. Courses from international institutions are evaluated on an individual basis.

## **Internal Transfers:**

York students transferring to Psychology should make an appointment with the Psychology advisor as early as possible after the transfer to discuss your program and selection of your Psychology courses. Psychology Advising is NOT the same as OSAS (Faculty of Health Advising) whom you may also see. To see the Psychology Advisor, call 416-736-5117 to book an appointment.

If you transfer into Psychology from another school/department in the Faculty of Health, but have not passed PSYC 1010 with minimum grade of C, you must accomplish this before you will be permitted to take any additional Psychology courses. This rule is enforced in all cases.

Some of the core courses in Psychology (e.g., Statistics, Research Methods) have substitutes in other departments at York (e.g., KINE 2049 is a substitute for PSYC 2030). If you have passed these courses in your previous program, they will be waived in Psychology but you must make certain this has been recognized in your official York record. However, if you have failed one of these courses, you are in the same situation as if you had failed the equivalent Psychology course (see page 6); you may only take that course or the Psychology equivalent one more time without petition. If you have failed one of these substitute courses twice, you cannot assume you will be able to complete a degree in Psychology; this will require a successful petition. If you don't take care of this right away, you may find that you cannot graduate in Psychology even after accumulating many Psychology credits. This is your responsibility!

Some students transferring into Psychology, especially from Kinesiology or Nursing, do so believing that this is temporary and that they will move back to their original program when their grades improve; therefore they do not seek Psychology advising or pay

attention to Psychology requirements. This is a serious mistake. Many students are not successful in transferring back into their original programs, and then find that they have to spend an extra year or two completing a degree in Psychology or cannot graduate at all because they have not paid enough attention to our program requirements, rules around failures etc. Don't let this happen to you! If you make Psychology your major, take it seriously. If you are not interested in Psychology, choose a different major right away or spend a year taking electives until you find a field that truly interests you.

## **CCEs that are not Approved Substitutes:**

Some courses offered by other departments (or universities) have significant overlap with our courses but not enough overlap to allow us to accept the course as a substitute. For example, Statistics as taught in Political Science (POLS 3300) is a CCE but NOT a substitute for PSYC 2020. This means that if you transfer into Psychology, you would have to take PSYC 2020, because it is a required course, and you would not be able to count your previous Political Science course in your degree because of the overlap. Be sure you understand your personal situation in this regard when you begin your Psychology studies.

## **Thinking About Your Future**

Students who are interested in obtaining masters or doctoral level degrees in psychology should plan early in their undergraduate career. Most graduate schools in Canada require a *minimum* average of B+ (minimum overall GPA of 7.00) for the last two years (approximately the equivalent of 20 three-credit courses) of study in an Honours degree program.

Some graduate programs, particularly in Clinical Psychology, may also require that students have completed a minimum of eight full courses or the equivalent (48 credits) in a breadth of psychology courses

that cover specific areas, including introductory psychology, statistics and research methods, as well as the biological, cognitive, developmental, social or abnormal basis of behaviour etc. Students contemplating graduate study are advised to take courses in statistics and research methods beyond those required for a general Honours degree, e.g. PSYC 3010 3.00 and PSYC 3031 3.00. In addition, they should check graduate program websites for further information about the breadth of psychology courses they must complete before applying to graduate school. Research experience is a valuable asset in preparation for graduate programs. Interested students should consider an independent study course (PSYC 3890 3.00/6.00 or PSYC 4890 3.00/6.00) when they select their optional psychology courses. See the course descriptions in Part D for further details about the independent study courses. Students may also pick up an information sheet and the contract for the independent studies course in the undergraduate studies office or download them from the Psychology website [psyc.info.yorku.ca/forms](http://psyc.info.yorku.ca/forms) .

A student completing the **Specialized Honours** program may be more competitive for the limited spaces available in graduate programs. Students who meet the requirements for the Specialized Honours program are therefore encouraged to apply no later than **May 15**. For further details about the program and its entrance requirements, please visit the program's website [yushpp.apps01.yorku.ca](http://yushpp.apps01.yorku.ca)

## Honours, Scholarships, Awards, Medals

In honour of their outstanding achievements, all students who obtain any of the following awards/scholarships are invited to an awards ceremony. Their names and photographs are also placed on our awards bulletin board outside the undergraduate office (room 291 BSB). For any of the awards/scholarships listed below that require applicants to show financial need, applicants must have completed a student financial profile. Details and the online application can be found at [sfs.yorku.ca/aid/sfp](http://sfs.yorku.ca/aid/sfp).

### Awards for Outstanding Thesis Research

#### The W.B. Templeton Honours Thesis Award

To honour the memory of Professor W.B. Templeton, the W.B. Templeton Honours Thesis Award is awarded to the fourth-year psychology student who produces the most outstanding Honours thesis. The Honours thesis supervisor nominates the thesis. A special committee appointed by the undergraduate director of the Department of Psychology evaluates all theses and selects a winner. The recipient of the award has her or his name inscribed on a plaque, which lists all previous winners and is displayed in the Norman S. Endler Room (163 Behavioural Science Building). This award also includes a prize of \$100.

Application: No application by the student is necessary.

#### Goranson Memorial Research Award

This award honours the memory of Professor Richard Goranson, a long-time member of the Department of Psychology who was committed to the supervision of undergraduate research projects. Awards are given annually to fourth-year Honours students who satisfy the criteria below and submit an application. Each award has an approximate value of \$400, which is to be used to cover expenses incurred in carrying out thesis research.

Inclusion/exclusion criteria:

- Must be a Canadian citizen/permanent resident and an Ontario resident
- Must demonstrate financial need
- Must be registered in PSYC 4000 6.00 Honours Thesis or PSYC 4001 6.00 Specialized Honours Thesis

Application: Applicants must submit a one-page description of their thesis project, along with a detailed budget of the expenses this award would cover. The budget must be approved by the thesis supervisor. These expenses must be directly related to the cost of completing the research. The one-page, hard-copy description should be submitted to the program assistant in Room 283 BSB, Department of Psychology, or emailed to [bthurst@yorku.ca](mailto:bthurst@yorku.ca) with "Goranson Award" in the subject heading of the e-mail. A final reconciliation of the costs incurred in conducting the research must be submitted to the program assistant at the conclusion of the research project. Applications are *due by the end of November*. More information about the application can be found on the Psychology website: [psyc.info.yorku.ca/honours-students](http://psyc.info.yorku.ca/honours-students)

### **Originality Prize in Memory of Paul Jeffrey Kusyszyn**

The Originality Prize in Memory of Paul Jeffrey Kusyszyn will be awarded to a fourth year, full time undergraduate York University student enrolled in the Department of Psychology. The prize will be awarded to the student with the most original BA honours thesis; to be eligible for this Prize, students must have received a minimum 'A' grade on their BA Honours thesis. The Prize is only to be awarded if the thesis truly exemplifies "outside the norm" originality as determined by the selection committee.

Application: No application by the student is necessary.

### **Awards Based on Academic Merit and Financial Need**

#### **Koenig Psychology Undergraduate Award**

In recognition of Professor Kathryn Koenig's long-time commitment to undergraduate education in the Department of Psychology, the Koenig Psychology Undergraduate Award is offered as a means of identifying, honouring and rewarding excellence in the Psychology Honours program, Faculty of Health. This award carries a value of approximately \$1,000 (tuition credit applied to the next fall/winter session).

Inclusion/exclusion criteria:

- Completion of 78 credits
- Major in psychology in an Honours BA or BSc program
- Highest sessional GPA on 30 credits (five full courses) in previous fall/winter session. In the exceptional circumstance that no student meeting the 30 credit minimum achieves a sessional GPA of 8.50 or greater, students who have

completed at least 24 credits (4 full courses) in previous fall/winter session will be considered.

- Must demonstrate financial need
- Must enrol in at least 24 credits (or the equivalent of four full courses) in the session for which the award is granted
- Must be a Canadian citizen/permanent resident and an Ontario resident
- Recipients of the President's or Governor's Awards of Distinction are excluded from receiving the Psychology Department Scholarship concurrently.

Application: No application by the student is necessary.

#### **The Ivana Guglietti-Kelly Award**

This award is in honour of Ivana Guglietti-Kelly. Each year, both graduate and undergraduate students in any of the departments of psychology at York (Faculty of Health, Glendon College and Graduate Studies) will be invited to submit completed work in competition for this award. The approximate value of this award is \$500.

Inclusion/exclusion criteria:

- Completed work may be historical, theoretical or empirical, but will be distinguished by its focus on qualitative methods illuminating psychological processes
- Must be a Canadian citizen/permanent resident and an Ontario resident
- Must demonstrate financial need

Application: Contact the Psychology Undergraduate program director, Psychology Undergraduate Office, 291 BSB.

## **Awards Based on Academic Merit**

### **The Ivana Guglietti-Kelly Prize**

This prize has been established to honour Ivana Guglietti-Kelly, whose interest and work in qualitative methods led to the first publication from the Department of Psychology at York University to be included in *The Journal of Phenomenological Psychology*. Each year, both graduate and undergraduate students in any of the Departments of Psychology at York (Faculty of Health, Glendon College and Graduate Studies) will be invited to submit completed work in competition for this prize. Two prizes may be awarded, and the approximate value of the prize varies.

Inclusion/exclusion criteria:

- Completed work may be historical, theoretical or empirical, but will be distinguished by its focus on qualitative methods illuminating psychological processes
- Must be a Canadian citizen/permanent resident and an Ontario resident

Application: Contact the Psychology Undergraduate program director, Psychology Undergraduate Office, 291 BSB.

### **The Psychology Undergraduate Book Prizes**

These awards are offered as a means of identifying, honouring and rewarding excellence in the Psychology Honours program. Approximately six awards will be made annually to the most outstanding second-, third- and fourth-year psychology students completing a full course load (approximately one award for a BA and one award for a BSc in each year level). Awardees are offered a selection of a book sold by the publishers sponsoring the event.

Inclusion/exclusion criteria:

- Major in psychology in an Honours program in the Faculty of Health
- Highest sessional GPA on 30 credits (five full courses) in the previous fall/winter session
- Completion of at least 12 credits in psychology

Application: No application by the student is necessary.

### **The Sandra W. Pyke Scholarship**

This scholarship was established by Professor Sandra Pyke to assist a Honours undergraduate student entering year 4 (successful completion of at least 90 credits) of an Honours program in Psychology. Approximate value of this award is \$500.

Inclusion/exclusion criteria:

- The recipient is selected on the basis of academic merit (the highest overall CGPA at the end of year 3).
- A condition for accepting the award is that the student will enrol in at least four full courses (24 credits) for the session in which the award is granted.
- Must have completed the course PSYC 3480 Psychology of Women with a grade of A+; in the absence of a candidate meeting this requirement and fulfilling the other criteria, those with a grade of A in PSYC 3480 will be considered.
- Must be a Canadian citizen
- Recipients of the President's Scholarship or the University Awards of Distinction will be excluded from receiving this award concurrently.

Application: No application by the student is necessary.

## Awards Based on Financial Need

### The James Alan Brackley Bursary

This award was established to honour the memory of James Alan Brackley, a Department of Psychology staff member for 32 years. One award will be given annually to a psychology major in the Faculty of Health who is in financial need.

Inclusion/exclusion criteria:

- The recipients must be a Canadian citizen, permanent resident or protected person, and be an Ontario resident
- Must demonstrate financial need

Application: Please review the Fall/Winter Undergraduate Bursaries and Awards Program information available at [sfs.yorku.ca/aid/sfp](https://sfs.yorku.ca/aid/sfp) and submit a student financial profile.

## External Awards, Scholarships and Bursaries for Psychology Students

### The Newton/Wilder Achievement Bursary

Prof. Elaine Newton and her husband, Alan Wilder, have established this award in appreciation of the education that all six of their children received at York University.

Inclusion/exclusion criteria:

- Major or minor in one of the following programs at the Keele Campus:
  - Faculty of Health—Psychology, Kinesiology & Health Science
  - Faculty of Liberal Arts and Professional Studies—Creative Writing, English, History, Humanities, Philosophy
  - Faculty of Fine Arts—Film (Photography), Dance, Music, Theatre, Visual Arts
  - Faculty of Education—Education
- Completion of a minimum of 54 credits
- 7.00 (B+) average
- Must demonstrate financial need

Application: To apply for this award, please fill out the Student Financial Profile at [sfs.yorku.ca/aid/sfp](https://sfs.yorku.ca/aid/sfp). Please include a personal statement outlining your financial circumstances.

## PART B: PROGRAMS OF STUDY, DEGREE REQUIREMENTS AND WORKSHEETS

Psychology degree-requirement worksheets are provided in the following pages. They summarize the degree requirements for a major in psychology for a 90-credit (3-year) BA/BSc degree, or a major/minor 120-credit (4-year) Honours BA/BSc degree. Students are encouraged to use these worksheets to chart their progress as they fulfil the requirements for their degree.

In addition to completing fewer credits than students seeking a 120-credit Honours BA/BSc, students seeking a 90-credit BA/BSc are not required to complete a thesis or as many statistics or upper-level courses. A major difference between the Honours and the Specialized Honours degrees is that students seeking a Specialized Honours degree must do additional coursework in statistics, research methods and the history of psychology. Both the Honours and Specialized Honours degrees require a thesis; students accepted into the Specialized Honours program are supported in their search for a thesis supervisor and more guidance to help them become competitive in applications for graduate study in psychology.

Students are responsible for ensuring that the courses in which they enrol will meet all requirements for graduation, and that they have successfully completed all prerequisites for the courses at the time of enrolment. Students therefore are encouraged to make an advising appointment with the Department of Psychology undergraduate advisor, who can monitor their progress.

## BA Degree Requirements

The following summarizes the main areas of degree requirements that students must complete while progressing through the Honours BA (120-credit) or BA (90-credit) program:

- Psychology MAJOR requirements: All majors require completion of Introduction to Psychology with a minimum grade of C, statistics, research methods, course(s) from the 2100/3100 series (foundation courses in the developmental/social/clinical areas of Psychology) and the 2200/3200 series (foundation courses in the biological and cognitive areas of Psychology; see page 38 for details), and a selection of other psychology courses to complete the minimum major and upper-level degree requirements. The Honours BA degrees also require completion of a thesis with an individual supervisor (PSYC 4000, PSYC 4001) or an advanced research course in seminar format (PSYC 4170) or in a community-based research format (PSYC 4175).
- The student's degree program (Honours, Specialized Honours, Honours Double Major, Honours Major/Minor with psychology as the Major or Minor, or the 90-credit BA) requires completion of a specific number/type of psychology courses, which vary depending on the degree. Check individual worksheets for specifics.
- **GENERAL EDUCATION REQUIREMENTS:** The general education requirements for students entering the program in 2016 are listed in the individual worksheets. For more details about General Education (Gen Ed) requirements for BA students, see [health.info.yorku.ca/current-student-information/general-education-requirements](http://health.info.yorku.ca/current-student-information/general-education-requirements)
- At the bottom of that page you will find a link to the Courses website and instructions on finding the Gen Ed

courses offered for the 2016-17 year. Be sure to follow the links carefully to Faculty of Health (HH) and then Bachelor of Arts (BA) to find the appropriate Gen Eds for your degree. When you reach the list, note that the right hand column (General Education Details) tells you which Gen Ed requirement each course will fulfil.

- **ELECTIVE REQUIREMENTS:** The total number of elective credits varies across degree programs and is listed in the individual worksheets. At a minimum, students must take 18 credits of electives outside of their major. As Psychology is one of the few programs with a maximum number of psychology courses allowed, students completing an Honours degree in Psychology must take more than 18 credits in electives outside of their major (see worksheets for details). The Psychology course maximum may only be exceeded with the permission of the Undergraduate Program Director.
- **RESIDENCY REQUIREMENT:** A minimum of 30 course credits, and at least half (50 per cent) of the course credits required in the major/minor must be taken at York University.
- **UPPER-LEVEL REQUIREMENTS:** To enrol in 4000-level courses in Psychology, students must have honours standing, completed 84 credits and the prerequisites for those courses
- (Please see page 56 for details).
- For the 120-credit BA (Honours, Specialized Honours, Honours Major/Minor when psychology is the major), students must take 36 credits at the 3000 or 4000 level; a minimum of 18 credits must be at the 4000 level. Included in the 18 credits at the 4000 level must be the completion of a thesis with an individual supervisor (PSYC 4000) or in a seminar course format (PSYC 4170) or a community-based research format (PSYC 4175), and at least six additional 4000-level credits in

psychology. NOTE: Specialized Honours students conduct an individual thesis research project with a supervisor and enrol in a seminar course (PSYC 4001 6.00). Any other specific information on the upper-level requirements for other Honours BA degrees, e.g. Honours Double Major, or Honours Major/Minor when psychology is the minor, is included on the individual worksheets.

- For the 90-credit BA, students must meet the upper-level requirement, which is 18 credits at the 3000 or 4000 level; a minimum of 12 credits in psychology must be at the 3000 or 4000 level; however, 4000 level Psychology courses are generally not open to 90-credit degree students.
- **CUMULATIVE GPA (CGPA) REQUIREMENT:**

Students intending to graduate with an Honours degree must complete a total of at least 120 credits with a minimum CGPA of 5.00 (C+).

Successful applicants to the Specialized Honours program must maintain a minimum CGPA of 7.00 (B+) and complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+). If students in the specialized honours program do not maintain the CGPA of 7.00 then they will be automatically moved into the Honours program. They will graduate with an honours degree as long as they do not drop below the CGPA of 5.00.

Students intending to graduate with a 90-credit BA degree must complete a total of at least 90 credits with a minimum CGPA of 4.00 (C). For the 90-credit BA a maximum of 102 credits are permitted to achieve the 4.00 minimum.

**The degree worksheets that follow, specify degree requirements as of September 2014.**

**These worksheets have been provided to supplement and remind students of important details contained in the University Calendar - the official document of the university.** For complete information, please consult the University Calendar at [calendars.registrar.yorku.ca](http://calendars.registrar.yorku.ca). In general, your degree requirements are determined by your year of entry into the program, so you should consult the appropriate version of the calendar.

**TIPS:**

---

1. Students with a Specialized Honours, Honours, or Bachelors Degree may use the Degree Progress Report (DPR) to check their academic status and progression of their program.  
Website: [registrar.yorku.ca/mydegreeprogress](http://registrar.yorku.ca/mydegreeprogress)
2. Students with a Double Major, Major/Minor option will need to schedule an academic advising appointment to discuss their academic program requirements.  
Phone: 416-736-5117

### PSYCHOLOGY MAJOR REQUIREMENTS (min. 30 credits):

- HH/PSYC 1010 6.00 (with a minimum grade of C)
- HH/PSYC 2021 3.00 or substitute
- HH/PSYC 2030 3.00

#### At least 3 credits chosen from:

- HH/PSYC 2110 3.00
- HH/PSYC 2120 3.00
- HH/PSYC 2130 3.00
- HH/PSYC 3125 3.00
- HH/PSYC 3140 3.00
- HH/PSYC 3170 3.00
- HH/PSYC 3190 3.00

#### At least 3 credits chosen from:

- HH/PSYC 2210 3.00
- HH/PSYC 2220 3.00
- HH/PSYC 2230 3.00
- HH/PSYC 2240 3.00
- HH/PSYC 3250 3.00
- HH/PSYC 3260 3.00
- HH/PSYC 3265 3.00
- HH/PSYC 3270 3.00
- HH/PSYC 3280 3.00
- HH/PSYC 3290 3.00

#### A minimum of 12 credits in Psychology must be at the 3000 or 4000 level:

- HH/PSYC 3xxx 3.00
- HH/PSYC 3xxx 3.00
- HH/PSYC 3xxx 3.00
- HH/PSYC 3xxx 3.00

**UPPER-LEVEL CREDITS:** A minimum of 18 credits must be taken at the 3000 level or 4000 level. Both Psychology and Non-Psychology credits taken at these levels counts towards this requirement

---

**ELECTIVES:** A minimum of 18 credits outside the major. Credits outside the major may be used to fulfill upper-level credits.

---

**GRADUATION REQUIREMENT:** All graduates must complete a total of at least 90 credits with a minimum overall cumulative grade point average of 4.00 (C).

# BSc Degree Requirements

The following summarizes the main areas of degree requirements that students must complete while progressing through the Honours BSc (120-credit) or BSc (90-credit) program:

- **Psychology MAJOR requirements:** All majors require completion of Introduction to Psychology with a minimum grade of C, Statistics, Research Methods, courses from the 2100/3100 series (foundation courses in the developmental/social/clinical areas of Psychology) and the 2200/3200 series (foundation courses in the biological and cognitive areas of Psychology; see page 38 for details), and a selection of other psychology courses to complete the upper-level psychology major requirements (see upper-level requirements section for details). The Honours BSc degrees also require completion of a thesis with an individual supervisor (PSYC 4000, PSYC 4001) or in a seminar course format (PSYC 4170) or in a community-based research format (PSYC 4175).

The student's degree program (Honours, Specialized Honours, Honours Double Major, Honours Major/Minor with Psychology as the Major or Minor, or the 90-credit BSc) requires completion of a specific number/type of psychology courses, which vary depending on the degree. Check individual worksheets for specifics.

- **GENERAL EDUCATION REQUIREMENTS:** The general education requirements for students entering the program in 2016 are listed in the individual worksheets. For more details about General Education (Gen Ed) requirements for BSc students, see [health.info.yorku.ca/current-student-information/general-education-requirements](http://health.info.yorku.ca/current-student-information/general-education-requirements)
- **1000 LEVEL BASIC SCIENCE REQUIREMENTS:** All BSc degrees require the completion of 15 credits of

1000-level science courses, which include 6 credits from math, 3 credits from computer science and engineering (LE/EECS), and a total of 6 credits from the following: physics (PHYS), biology (BIOL), and chemistry (CHEM). Students should refer to the degree worksheets for the list of specific courses. Note that Computer Science courses formerly listed as FSE(CSE) are now housed in the Department of Electrical Engineering and Computer Science in the Lassonde School of Engineering and are listed as LE(EECS).

- **ADDITIONAL SCIENCE CREDITS OUTSIDE THE MAJOR:** A minimum of 9 science elective credits must be taken in the Science disciplines\* outside the major that includes all Faculty of Science (SC) courses, Engineering (LE) courses and most Kinesiology (KINE) courses. Of these 9 science credits, 3 science credits must be taken at the 2000 level or above outside the psychology major, and another 6 science credits outside the major at any level.
- **NOTE:** *These 9 science elective credits are not required for Double Major, or Major/Minor combinations.*
- \*Current Science disciplines are: Biology (BIOL), Biochemistry (BCHM), Biophysics (BPHS), Chemistry (CHEM), Electrical Engineering and Computer Science (EECS), Geography (GEOG), Kinesiology and Health Science (KINE), Mathematics and Statistics (MATH), Physics and Astronomy (PHYS), Psychology (PSYC), Science and Technology Studies (STS).
- **ELECTIVE REQUIREMENTS:** Course selection for the elective credits may be science or non-science courses used to fulfill the science and upper-level requirements
- **RESIDENCY REQUIREMENT:** A minimum of 30 course credits, and at least half (50 per cent) of the course credits required in the major/minor must be taken at York University.
- **UPPER-LEVEL REQUIREMENTS:** See 4<sup>th</sup> year Course prerequisite requirement starting on page 75

- **For the 120-credit BSc** (Honours, Specialized Honours), students must complete 42 credits at the 3000 or 4000 level. This includes 18 credits at 3000 or 4000 upper level courses required by the major; a minimum of 12 credits in psychology must be at the 4000 level. Included in the 12 credits at the 4000 level must be the completion of a thesis with an individual supervisor (PSYC 4000) or in a seminar course format (PSYC 4170) or in a community-based research format (PSYC 4175), and at least six additional 4000-level credits in psychology. **NOTE:** *Specialized Honours students conduct an individual thesis research project with a supervisor and enrol in PSYC 4001. Any other specific information on the upper-level requirements for other Honours BSc degrees, e.g. Honours Double Major, or Honours Major/Minor when psychology is the major or minor, is included on the individual worksheets.*
- **For the 90-credit BSc**, students must meet the upper-level requirement, which is 18 credits at the 3000 or 4000 level; a minimum of 12 credits in psychology must be at the 3000 or 4000 level.
- **CUMULATIVE GPA (CGPA) REQUIREMENT:** Students intending to graduate with an **Honours degree** must complete a total of at least 120 credits with a minimum CGPA of 5.00 (C+).

Successful applicants to the **Specialized Honours program** must maintain a minimum CGPA of 7.00 (B+) and complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+). If students in the specialized honours program do not maintain the CGPA of 7.00 then they will be automatically moved into the Honours program. They will graduate with an honours degree as long as they do not drop below the CGPA of 5.00. Students intending to graduate with a **90-credit BSc degree** must complete a total of at least 90 credits with a minimum CGPA of 4.00 (C). For the 90-credit BSc a maximum of 102 credits are permitted to achieve the 4.00 minimum.

**The degree worksheets that follow specify degree requirements as of September 2014.**

**These worksheets have been provided to supplement and remind students of important details contained in the University Calendar - the official document of the university.** For complete information, please consult the University Calendar at [calendars.registrar.yorku.ca](http://calendars.registrar.yorku.ca). In general, your degree requirements are determined by your year of entry into the program, so you should consult the appropriate version of the calendar.

## TIPS:

1. Students with a Specialized Honours, Honours, or Bachelors Degree may use the Degree Progress Report (DPR) to check their academic status and progression of their program.  
Website: [registrar.yorku.ca/mydegreeprogress](http://registrar.yorku.ca/mydegreeprogress)
2. Students with a Double Major, Major/Minor option will need to schedule an academic advising appointment to discuss their academic program requirements.  
Phone: 416-736-5117

## York-Seneca Rehabilitation Services CERTIFICATE PROGRAM

This program is offered jointly by York University and Seneca College of Applied Arts and Technology. It prepares undergraduate students with a background in psychology to work in a variety of rehabilitation fields by integrating academic training in health sciences together with practical field experience. Graduates receive a BA/BSc or an Honours BA/Honours BSc degree at York in conjunction and a Certificate in Rehabilitation Services from Seneca College.

Completion of the joint program adds one year to the student's undergraduate degree, typically resulting in four years for a BA or BSc degree and five years for an Honours BA or Honours BSc degree. The extra year allows the student to complete five full-year Seneca courses on top of the undergraduate degree requirements. In addition to in-class academic instruction, the student is required to complete two full-year (September to April) practica involving a total of 800 hours of supervised fieldwork, with a minimum of 200 hours in each of the three major domains of rehabilitation: physical, emotional, and developmental. Practicum placements can be tailored to each student through discussion with the practicum coordinator.

## Admission Requirements

Students who wish to enter the York-Seneca Rehabilitation Services Certificate program should apply to the psychology department in the year preceding the final year of their BA or BSc degree program. While the program is targeted to undergraduates in the Psychology program, students in the Health Sciences or Kinesiology program may also apply provided the required psychology courses for the joint program can be met.

The application deadline is normally in early March. In order to be eligible to apply, applicants must have:

- completed 60 University-level credits towards a BA or BSc or 90 University-level credits towards an Honours BA or Honours BSc with a minimum cumulative grade point average of 5.00 (C+);
- completed HH/PSYCH 1010 6.0 (Introduction to Psychology course) with a minimum grade of C;
- fulfilled the General Education requirements of York University;
- good intellectual ability, emotional stability and a strong interest in working with individuals with various types of disabilities
- previous employment or volunteer work experience in the field of rehabilitation is recommended, but not required

In order to be considered for admission, all applicants must submit a complete application (i.e., application form, official transcripts and two letters of recommendation). Students should contact [ysrehab@yorku.ca](mailto:ysrehab@yorku.ca) for further information about applying to this program.

Further information about this program and online instruction applications are available at the following website:

## PART C: POLICIES AND PROCEDURES

### Code of Student Rights and Responsibilities

York University is a place of research, teaching and learning, where people value civility, diversity, equity and respect in their interactions with one another. Freedom of speech, freedom of association, freedom to study and to learn, freedom to engage in research and the freedom to write and to publish all are recognized as central to the mission of the institution. These values can be meaningful and these freedoms fully realized only in an atmosphere of safety and security.

Students are required to familiarize themselves with the Student Code of Conduct online at [yorku.ca/oscr/codeofrr](http://yorku.ca/oscr/codeofrr).

### Academic Honesty

A central purpose of the University is to teach students to think independently and critically. Breaches of academic honesty run counter to this purpose and violate the ethical and intellectual principles of the University; they are therefore subject to severe penalties.

York University has policies on plagiarism, cheating, and other forms of breaches of academic honesty. See details at [secretariat-policies.info.yorku.ca/policies/academic-honesty-senate-policy-on](http://secretariat-policies.info.yorku.ca/policies/academic-honesty-senate-policy-on). These policies apply to students enrolled in the psychology program. Below is a succinct summary of definitions, procedures and penalties.

### Academic Integrity Tutorial and Quiz

All students are strongly advised to take the Faculty of Health's Academic Integrity Tutorial and Quiz, which may be found at: [yorku.ca/health/yquiz/academicintegritytutorial.pdf](http://yorku.ca/health/yquiz/academicintegritytutorial.pdf). Many Psychology courses will require students to complete the quiz as part of the course requirements.

### Grades and Grading Schemes

Except for courses taken under the pass/fail option (more information is available online at the Current Students website), academic courses in the Faculty of Health are graded according to the following scale. The grade point values are used to compute averages.

**NOTE:** Only courses taken at York University are included in the grade point average. The percentages indicated are not part of the official grading scheme and are meant to be used as guidelines only. The letter-grade system is the fundamental system of assessment of performance in undergraduate programs at York University.

Grade	Grade Point	Percent Range	Description
A+	9	90 – 100	Exceptional
A	8	80 – 89	Excellent
B+	7	75 – 79	Very Good
B	6	70 – 74	Good
C+	5	65 – 69	Competent
C	4	60 – 64	Fairly Competent
D+	3	55 – 59	Passing
D	2	50 – 54	Marginally Passing
E	1	Marginally below 50%	Marginally Failing
F	0	Below 50%	Failing

The grading scheme for a course (including type, weight and due date for assignments, essays, exams etc) will be announced in class and made available in writing within the first two weeks of class.

## Graded Feedback

Under normal circumstances, you will receive graded feedback worth at least 15% of the final grade for the fall, winter or summer session, and 30% for full-year courses offered in the fall/winter session, before the final withdrawal (drop) date from a course without receiving a final grade, with the following exceptions:

- graduate or upper level undergraduate courses where course work typically, or at the instructor's discretion, consists of a single piece of work and/or is based predominantly (or solely) on student presentations (e.g. honours theses or

graduate research papers not due by the drop date, etc.);

- practicum courses;
- ungraded courses;
- courses in Faculties where the drop date occurs within the first 3 weeks of classes;
- courses which run on a compressed schedule ( a course which accomplishes its academic credits of work at a rate of more than one credit hour per two calendar weeks )

## GPA Calculation

Your overall or Cumulative Grade Point Average (CGPA) is determined by multiplying the total credits for each course you have taken by the grade point earned in the course. Add up the grade points earned in all courses and the total number of credits taken. The CGPA is determined by dividing the total grade points by the total credits. If you have repeated any course, include only your 2<sup>nd</sup> grade and credits for the course in this calculation.

You can determine your CGPA using the on-line GPA calculator at: [health.info.yorku.ca/current-student-information/calculate-your-gpa](http://health.info.yorku.ca/current-student-information/calculate-your-gpa). You can also use the on-line reverse GPA calculator at the same link to determine the grades required in remaining courses in order to attain a desired CGPA.

## Grade Reappraisal

A grade reappraisal is a re-evaluation of written work done independently typically by an instructor of the same course if one is available. Written work means essay questions on a final exam and any written paper/essays in a course. Objective material, i.e., multiple-choice or true-false questions, is not re-evaluated. In the

Department of Psychology, midterm exams are not re-evaluated.

Grade reappraisal does not mean simply changing a grade because of extenuating circumstances.

## **Academic Petitions**

A petition is a formal request for the waiver of a Faculty of Health regulation or deadline. Students have the right to petition with reasonable grounds for special consideration. Two of the most common petitions are late withdrawal, i.e., a request to remove a course from the transcript, and deferred standing, i.e. a request to write a missed final exam or to submit final assignments. Workshops about the petitions process are available. The petitions process and forms can be found at [health.info.yorku.ca/current-student-information/petitions](http://health.info.yorku.ca/current-student-information/petitions)

## PART D: COURSES

### 2016-17 Lecture Schedule and Supplemental Calendar

Changes will be posted on the bulletin board across from room 249 BSB.

**Students should check this board or the online lecture schedule at**

**[psyc.info.yorku.ca/exam-lecture-schedules](http://psyc.info.yorku.ca/exam-lecture-schedules) before finalizing their timetables.**

Changes will also be reflected in addendum copies available in the Department of Psychology Undergraduate Office.

### First-year Required Course in Psychology

Introduction to Psychology (1010 6.00) is a prerequisite (or corequisite in the case of 2020 6.00, 2021 3.00 and 2022 3.00) for all 2000-, 3000- and 4000-level courses in psychology. **In order to pursue further studies in psychology, a student must pass Introduction to Psychology (1010 6.00) with a minimum grade of C (4.00).** Students who fail to complete PSYC 1010 6.00 with the required minimum grade will not be eligible to take upper-level psychology courses. This rule also applies to students doing a Psychology Minor and to non-majors wishing to take Psychology courses as electives.

### FW2016 New Courses

PSYC 2010 3.00 Writing in Psychology  
PSYC 3000 3.00 Professionalism and Communication in Psychology  
PSYC 4180 6.00 Critical Thinking in Psychology

# Course Descriptions and Section Information

For clarity, all prerequisites are listed with their current HH course number. To see whether you have taken an equivalent course at Glendon, or in Arts or Atkinson prior to 2006, check the list of Course Credit Exclusions on p. 82-85.

## 1000-Level Courses

### 1010 6.00 INTRODUCTION TO PSYCHOLOGY

A survey of psychology introducing basic terms, concepts and methods. Included are topics such as biological bases of behaviour, learning, perception, motivation, cognition, child development, personality, and abnormal and social psychology.

**Note:** This course is required for all students who intend to pursue additional courses in psychology at the 2000, 3000 and 4000 levels. Students must pass the course with a minimum grade of C (4.00) in order to pursue further studies in psychology.

**Course credit exclusions:** GL/PSYC 2510 6.00

**\*Note:** Registration for Section “M & N” opens in the fall

## 2000-Level Courses

### **2010 3.00 WRITING IN PSYCHOLOGY**

Develop university-level writing ability. Students write about psychological content; however, this course develops general written communication skills that are broadly transferable. Students learn how texts 'work' and develop self-reflective writing skill. This course builds skills for writing in upper year University courses and develops the literacy expected of an educated citizen.

**Prerequisite:** HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.

**Note:** Not open to Non Psychology majors.

Course	Day	Time	Course Director
2010 3.00 M (W)	R	7:00 – 10:00pm	R. SHEESE
2010 3.00 N (W)	T	11:30 – 1:00	J. EASTWOOD

### **2020 6.00 STATISTICAL METHODS I AND II**

An introduction to the analysis of data from psychological studies. Fundamental concepts and techniques of both descriptive and inferential statistics and their application to psychological research.

**Prerequisite or corequisite:** HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C when used as a prerequisite.

**Course credit exclusions:** AK/AS/HH/SC/PSYC 2021 3.00, AK/AS/HH/SC/PSYC 2022 3.00, AK/PSYC 2510 3.00 (prior to Summer 2002), AK/PSYC 3110 3.00 (prior to Summer 2002), SC/BIOL 2060 3.00, SC/BIOL 3090 3.00 (prior to Summer 2000), AS/ECON 2500 3.00, AK/ECON 3470 3.00, AK/ECON 3480 3.00, AS/ECON 3500 3.00, AS/HH/SC/KINE 2050 3.00, AS/HH/SC/KINE 3150 3.00, AK/AS/SC/MATH 2500 3.00, AK/AS/SC/MATH 2560 3.00, AK/AS/SC/MATH 2565 3.00, AK/AS/SC/MATH 2570 3.00, AS/POLS 3300 6.00, AS/SOCI 3030 6.00, GL/PSYC 2530 3.00.

### Important Information Regarding Statistics Course Credit Exclusion and Substitution

**NOTE 1:** Students who discontinue registration in Psychology 2020 6.00 at the end of the fall term may not petition for credit for a half course in statistics.

**NOTE 2:** Course credit exclusions (CCEs) may not be substituted for PSYC 2020 6.00 to satisfy psychology degree requirements unless approved as acceptable substitutes by the department and faculty. (See the list below.) Students cannot take PSYC 2020 6.00 if they have taken another statistics course (in any department/faculty). See the University Calendar for the list of CCEs.

**NOTE 3:** Only courses specified in the following list may be substituted for the PSYC 2020 6.00 requirement. Some of these courses are not a substitution but a CCE only (see list). Six credits are required for substitution except as indicated below:

- PSYC 2021 3.00 and 2022 3.00
- AK/PSYC 2510 3.00 (prior to Winter 2002) and AK/PSYC 3110 3.00 (prior to Summer 2002)
- ECON 2500 3.00 and 3500 3.00\*
- AK/ECON 3470 3.00 (prior to Winter 2008) and AK/ECON 3480 3.00

## 3000-Level Courses

### **3000 3.00 PROFESSIONALISM AND COMMUNICATION IN PSYCHOLOGY**

Enhance students' professionalism and communication skills through teaching, class discussion, assignments and experiential learning within practicum settings. Specific learning objectives include: capacity for autonomous learning, the development of an identity as an academic psychologist, development of professional integrity, professional self-presentation, and effective communication of academic work in various forms (e.g. posters, talks, written academic papers, fellowship applications).

#### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2010 3.00 (Writing in Psychology)
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitute
- HH/PSYC 2030 3.00 (Introduction to Research Methods)

**Open to:** Specialized Honours Students.

**Note:** Enrollment is by permission of the department

Course	Day	Time	Course Director
3000 3.00 A (Y)	F	11:30 – 2:30	J. EASTWOOD

### **3010 3.00 INTERMEDIATE RESEARCH METHODS**

An intermediate course to provide further experience with the design, execution, analysis, interpretation and communication of psychological studies. Building on the foundation established in PSYC 2030 3.00 (Introduction to Research Methods), the course further prepares students for many types of advanced-research and Honours thesis projects.

#### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or PSYC 2021 3.00 (Statistical Methods I)
- HH/PSYC 2030 3.00 (Introduction to Research Methods)

**Course credit exclusions:** AK/PSYC 3180 3.00 (prior to Summer 2002), GL/PSYC 3525 3.00.

**NCR note:** No credit will be retained for this course for students who have successfully completed or who are currently enrolled in HH/PSYC 4000 6.00, HH/PSYC 4001, HH/PSYC 4170 6.00, HH/PSYC 4175 or equivalents.

### **3495 3.00 NEUROSCIENCE OF AGING AND COGNITIVE HEALTH**

This course investigates the neural basis of cognitive changes across the adult lifespan. Students will learn how the brain is altered in structure and function as people age and how these changes impact cognition. The course will examine the border between normal and abnormal aging and how neuroscience research is informing strategies to sustain cognitive health into older adulthood.

**Prerequisite:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2240 3.00 (Biological Basis of Behaviour)

**Course credit exclusion:** None.

## **3890 6.00 / 3890 3.00 INDEPENDENT STUDY**

### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- Students should have completed at least 24 credits at York University.

**NOTE:** This course is not accessible online until the student submits a completed and signed Independent Study Agreement Form to the Psychology Undergraduate Office, Room 291 Behavioural Science Building, to enrol in this course.

Students may arrange to do an independent study course with a faculty member from one of the two Psychology Departments: HEALTH or GLENDON. This allows students and professors to work in areas of psychology that lie outside the usual course offerings. An independent study course may be based on library or empirical research or a combination of the two. An independent study cannot have, as its major focus, a practicum experience in an applied setting. Guidelines for Independent Study Courses and Independent Study Agreement Forms may be downloaded from the Forms section of Psychology Undergraduate Program website: [psyc.info.yorku.ca/forms](http://psyc.info.yorku.ca/forms)

If you wish to do an independent study course, you must find a faculty member who is willing to supervise you. A list of all faculty members with their areas of interest is available from the Psychology Undergraduate Office, 291 BSB or you can use the Faculty Directory link on the Psychology Department website ([psyc.info.yorku.ca](http://psyc.info.yorku.ca)) to learn more about faculty members' research interests and availability. Not all faculty members are available to supervise independent studies every year. If you are successful in finding a faculty supervisor, you must work out the details of the course with the faculty member according to the guidelines, and complete and sign the Independent Study Agreement. **Then take the completed agreement to 291 BSB** when enrolment begins in the spring (in accordance with published enrolment dates) or before the last day to enrol in a course with written permission of the course instructor (see [registrar.yorku.ca/enrol/dates/fw16](http://registrar.yorku.ca/enrol/dates/fw16) for the dates).

**NOTE:** Students may take **one full course (6.00 credits)** independent study course **or two half courses (3.00 credits)** in each academic session.

**SCIENCE STUDENTS:** Students beginning their BSc prior to September 2012 should note that some topics chosen for the Independent Study PSYC 3890 6.00 (3890 3.00) course **may not be** eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that it will be counted for science credit.

**Open to:** NA.

## 4000-Level Courses

To enrol in 4000-level courses, students must complete their 4000-level course prerequisites and a total of 84 credits. Please read the following information for details.

- All 4000-level psychology courses require the following general prerequisites or substitutes:
  - HH/PSYC 1010 6.00, with a minimum grade of C.
  - HH/PSYC 2021 3.00 or HH/PSYC 2020 6.00 or substitutes.
  - HH/PSYC 2030 3.00.
  - Before enrolling in HH/PSYC 4000 6.00, HH/PSYC 4001 6.00, HH/PSYC 4170 6.00 or HH/PSYC 4175 6.00, students must complete a full year of statistics, i.e. HH/PSYC 2020 6.00 or substitutions.
- Before enrolling in HH/PSYC 4001 6.00, students must complete HH/PSYC 3010 3.00 or a substitute course.
- Most 4000-level courses require completion of additional 2000-level or 3000-level specific course prerequisites. Students must make sure they have completed the other listed prerequisites, or their enrolment in the course will be cancelled and they may lose their tuition fee. To determine what these other course prerequisites are, please see the 4000-level course descriptions in this supplemental calendar

**NOTE:** Students admitted into the Faculty of Health as of F/W 2006 will be required to complete HH/PSYC 2021 3.00 AND HH/PSYC 2030 3.00 or a substitute in order to complete a minor in psychology.

**NOTE:** HH/PSYC 3010 3.00 Intermediate Research Methods **cannot** be taken by students who have passed or are taking HH/PSYC 4000 6.00, HH/PSYC 4001 6.00, HH/PSYC 4170 6.00 or HH/PSYC 4175 6.00.

## **4000 6.00 HONOURS THESIS**

### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- Students must be in an Honours program in Psychology and have completed at least 84 credits (excluding (EDUC) education courses).
- Not open to special students, or students completing a minor in psychology or students admitted into the Specialized Honours program in Psychology as of September 2008.

**Course Credit Exclusions:** HH/PSYC 4170 6.00, HH/PSYC 4175 6.00, HH/PSYC 4001 6.00, AK/PSYC 4700 3.00, AK/PSYC 4800 6.00, or GL/PSYC 4000 6.00.

**NOTE:** This course is not accessible to enrol in online until the student submits the completed and signed Honours Thesis Agreement Form (see below) to the Psychology Undergraduate Office, Room 291 BSB.

**General Description:** This course gives students the opportunity to carry out and report an original piece of research under the supervision of a faculty member. The nature of the Honours thesis is described in the *Psychology Honours Thesis Manual*, available from Room 291 BSB or online at [psyc.info.yorku.ca/honours-students](http://psyc.info.yorku.ca/honours-students). The thesis project may be empirical, historical or theoretical. The specific terms of the Honours thesis should be worked out with the supervisor. It is the student's responsibility to find a supervisor in the Faculty of Health Psychology Department who is willing to serve as the thesis supervisor. Ideally, these arrangements should be made in the spring or summer preceding the start of classes.

When the student and the supervisor have come to an agreement on the subject of the thesis, both must sign the PSYC 4000 6.00 Thesis Agreement Form. When the form is completed and signed, the student should return it to Room 291 BSB so that he or she can complete registration.

Workshop dates & times will be arranged via Moodle during the 2016-17 academic year. These workshops will deal with various topics of concern to Honours students who are conducting their thesis or who will be applying to graduate school. Topics include the following: writing the GRE, applying for grad school scholarships, writing in APA style, creating a poster etc. In addition, all Honours students should go [psyc.info.yorku.ca/honours-students](http://psyc.info.yorku.ca/honours-students) for tips and web links on the aforementioned topics, as well as information on doing a thesis, the ethics approval process, help with statistics etc. The list of workshops (and where they are located) is also posted in the Psychology Undergraduate Office in 291 BSB.

**SCIENCE STUDENTS:** Students beginning their BSc prior to September 2012 should note that some topics chosen the Honours Thesis (HH/PSYC 4000 6.00, HH/PSYC 4001 6.00) and the Advanced Research in Psychology (HH/PSYC 4170 6.00), **may not** be eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that the thesis may be counted for science credit.

## **4001 6.00 SPECIALIZED HONOURS THESIS**

### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- HH/PSYC 3010 3.00 (Intermediate Research Methods)
- HH/PSYC 3031 3.00 (Intermediate Statistics Laboratory)

**Note:** Students must have been accepted into the Specialized Honours Program in order to enrol in this course. Students must obtain the written approval of a Specialized Honours thesis supervisor before registration is permitted. The required form can be obtained from the undergraduate office or the Specialized Honours Program Coordinator. This form must be completed and signed by the student and supervisor before the undergraduate office will give the student access to enrol in this course online.

**Course Credit Exclusions:** HH/PSYC 4000 6.00, HH/PSYC 4170 6.00, HH/PSYC 4175 6.00, GL/PSYC 4000 6.00, AK/PSYC 4700 3.00 (before Summer 2002), or AK/PSYC 4800 6.00 (before Summer 2002).

**Other Information:** All of the above prerequisites must be completed before enrolling into HH/PSYC 4001 6.00.

**General Description:** Students carry out an individual piece of psychological research in consultation with a thesis supervisor and write a thesis. Some Honours thesis topics may not be eligible for science (SC) credit. In addition, students attend a seminar course.

**Class Format:** The seminar component to this course has some mandatory and some non-mandatory components. The mandatory component of the seminar is typically worth up to 35% of the final thesis grade. This would include attendance at sessions for oral presentations of the thesis proposals of other students, attendance at a session on ethics, presenting the thesis proposal orally and presenting the thesis on poster day.

There will be other non-mandatory components that students can attend or not, e.g. sessions on applying to grad school, writing the GRE, scholarship applications, creating posters, and assistance with experimental methodology, analysis and APA writing style. The learning objectives for the seminar component are to develop an understanding of ethics in research, oral presentation skills, and critical reading and writing skills.

**Cont'd...**

#### **4001 6.00 Specialized Honours Thesis Cont'd...**

**Requirements:** The thesis component is typically worth at least 65% of the final grade and this will be assigned by the Honours thesis supervisor. The seminar component is typically worth up to an additional 35% of the grade and will be assigned by the seminar course director.

Requirements for the seminar will include attendance at sessions for oral presentations of the thesis proposals of other students, as well as a session on ethics. Students are also typically required to give an oral presentation of their thesis proposal and present their thesis as a poster during the undergraduate thesis poster day.

**Textbooks:** There is no specified reading list as it changes for each student and the topic under study. The only books that students might want to acquire would be the latest APA manual and possibly an SPSS manual. However, these specifications are idiosyncratic for each person running the seminar(s) and expectations of the specific thesis supervisor.

**Other Information:** PSYC 4001 is open only to students who have been accepted into the Specialized Honours program. The number of contact hours for the thesis component will vary, depending on the research project and the thesis supervisor. The seminar component will meet more regularly in the first term in order to ensure that students receive appropriate feedback and guidance on their proposals and introduction and methods, and have access to a seminar on ethics; students will meet less regularly as a group in the second term, when they are actively collecting their data.

**Access Information:** Only for students who have applied to and been accepted into the revised specialized honours program.

**4170 6.00 ADVANCED RESEARCH IN PSYCHOLOGY**

As an alternative to independent thesis research (AK/AS/HH/SC/PSYC 4000 6.00), this course offers structure, support and guidance for student research by means of regular seminar meetings. Different sections of the course (described in the department's supplemental calendar) may focus on different types of research. Some research topics may not be eligible for science (SC) credit.

**Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- Students must be in an Honours program in Psychology and have completed at least 84 credits; excluding (EDUC) education courses.

### **4175 6.00    ADVANCED COMMUNITY-BASED APPLIED RESEARCH**

An advanced research course in which research is conducted in partnership with community agencies and organizations in order to address community partner needs in broad areas within health and social psychology. Students integrate psychological theories and methods with the design, data collection, analysis, presentation and write up of applied research projects.

#### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes.
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- Students must be in an Honours program in Psychology and have completed at least 84 credits; excluding (EDUC) education courses.

**Course Credit Exclusions:** HH/PSYC 4000 6.00, HH/PSYC 4001 6.00, HH/PSYC 4170 6.00, or equivalents

**Class Format:** lectures, off-campus data collection

**Requirements:** Group projects, class presentations, written assignments, poster, final paper.

**Other Information:** Students will only work on research projects identified by community partners.

### **4180 6.00    CRITICAL THINKING IN PSYCHOLOGY**

Critical thinking in this course refers to purposeful and self-regulated judgment applied to the processes of gathering, evaluating and integrating sometimes conflicting theories and evidence in Psychology to arrive at an informed opinion. Students will be taught to engage in critical thinking and to effectively communicate their conclusions to a general public audience. To promote flexibility in critical thinking about key aspects of Psychology, emphasis will be placed on covering topics in breadth.

#### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes.
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- Students must be in an Honours program in Psychology and have completed at least 84 credits; excluding (EDUC) education courses.

**Open to:** Honours students in Psychology.

**Note:** Capstone course for non-thesis Honours program in Psychology.

### **4260 3.00 SEMINAR IN SENSATION AND PERCEPTION**

This seminar course gives advanced, detailed coverage of topics in sensation and perception. Specific topics vary according to the instructor, and could include vision (e.g., shape perception, colour perception), hearing (e.g., auditory localization, speech perception), or vestibular perception (e.g., balance, the sense of movement). The course emphasizes reading and evaluating original scientific work, and readings include journal articles or research monographs. Special attention is paid to understanding the value and limitations of common experimental methods in perception research.

#### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2021 3.00 (Statistical Methods I) or HH/PSYC 2020 6.00 (Statistical Methods I and II).
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.

## **4460 6.00 ATYPICAL DEVELOPMENT**

An examination of psychological problems and disorders of childhood and adolescence including an extensive exploration of their nature, causes, and treatment based on current research. Developmental risks and protective factors will be considered. Students are also required to complete a volunteer (unpaid) placement in children's settings, such as schools and childhood agencies.

### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2021 3.00 (Statistical Methods I) or HH/PSYC 2020 6.00 (Statistical Methods I and II).
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- HH/PSYC 2110 3.00 (Developmental Psychology)
- Students must be in an Honours program in Psychology and have completed at least 84 credits; excluding (EDUC) education courses.

**Course credit exclusion:** GL/PSYC 3510 3.00.

**NOTE:** To register for this course, students must contact Jennifer Malisani, the Administrative Assistant in the Psychology Undergraduate Office by emailing [jmalisan@yorku.ca](mailto:jmalisan@yorku.ca). Once eligibility is confirmed, student will be given instructions on how to obtain their Vulnerable Sector Screen Check through their regional police station via email. A copy of the receipt from the police station or copy of the certified cheque/money order made out to the police station must be submitted to the Psychology Undergraduate Office as proof that the request has been initiated. The police reference check should be initiated by the end of July at the latest to provide adequate time for processing, and to ensure the paperwork is complete prior to start of the course in September.

## **4890 6.00 / 4890 3.00 INDEPENDENT STUDY**

### **Prerequisites:**

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2021 3.00 (Statistical Methods I) or PSYC 2020 6.00 (Statistical Methods I and II).
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes.
- Students must be in an Honours program in Psychology and have completed 84 credits; excluding (EDUC) education courses.

**NOTE:** This course is not accessible online until the student submits a completed and signed Independent Study Agreement Form to the Psychology Undergraduate Office, Room 291, Behavioural Science Building, to enrol in this course.

Students may arrange to do an independent study course with a faculty member from one of the two Psychology Departments: HEALTH or GLENDON. This allows students and professors to work in areas of psychology that lie outside the usual course offerings. An independent study course may be based on library or empirical research or a combination of the two. An independent study cannot have, as its major focus, a practicum experience in an applied setting. Guidelines for Independent Study Courses and Independent Study Agreement Forms may be downloaded from the Forms section of Psychology Undergraduate Program website: [psyc.info.yorku.ca/forms](http://psyc.info.yorku.ca/forms)

If you wish to do an independent study course, you must find a faculty member who is willing to supervise you. A list of all faculty members with their areas of interest is available from the Psychology Undergraduate Office, 291 BSB or you can use the Faculty Directory link on the Psychology Department website ([psyc.info.yorku.ca](http://psyc.info.yorku.ca)) to learn more about faculty members' research interests and availability. Not all faculty members are available to supervise independent studies every year. If you are successful in finding a faculty supervisor, you must work out the details of the course with the faculty member according to the guidelines, and complete and sign the Independent Study Agreement. **Then take the completed agreement to 291 BSB** when enrolment begins in the spring (in accordance with published enrolment dates) or before the last day to enrol in a course with written permission of the course instructor (see [registrar.yorku.ca/enrol/dates/fw16](http://registrar.yorku.ca/enrol/dates/fw16) for the dates).

**NOTE:** Students may take one full course (6.00 credits) independent study course or two half courses (3.00 credits) in each academic session.

**SCIENCE STUDENTS:** Students beginning their BSc prior to September 2012 should note that some topics chosen for the Independent Study HH/PSYC 4890 6.00 (4890 3.00) course may not be eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that it will be counted for science credit.

**Open to:** NA.

## PART E: RESOURCES AND STUDENT LIFE

Many resources are available to students, either through the Web or on campus. Faculty of Health has created a Student Success Program page that provides guidance and academic support for succeeding in courses; making connections at York with various clubs and organizations; where to get advice on academics, financial, career, personal matters and more. See details at [health.info.yorku.ca/student-success-programs](http://health.info.yorku.ca/student-success-programs). See below for further resources.

### Career Centre

The centre provides workshops and opportunities for students to learn how to build skills and experience, search for jobs, determine career goals etc. For further details, go to Suite 202, McLaughlin College, or

**Telephone:** (416) 736-5351,  
**E-mail** [careers@yorku.ca](mailto:careers@yorku.ca)  
**Website:** [careers.yorku.ca](http://careers.yorku.ca)

Also available to York grads, up to two years after graduation

### Learning Skills Services

Learning Skills Services offers workshops on a range of useful Learning Skills topics, depending on the time of the academic year. All LSS workshops are designed to help students identify, develop and improve key academic and organizational skills needed to achieve academic goals, as well as to increase self-awareness about your own learning. Attend 8 or more Learning Skills Workshops at any point during your time at York to earn your Passport to Success certificate.

### Libraries

The libraries at York University provide resources that include borrowing/renewing privileges and help with research.

### Mature Students' Associations

The Atkinson Centre for Mature and Part-time Students (ACMAPS) was established in 2007. The mandate of the centre includes raising awareness of issues that affect mature and part-time students across the University, leading and facilitating initiatives responding to the needs of these students, and advocating on their behalf. The establishment of ACMAPS confirms York University's ongoing commitment to welcome and to serve the needs of mature and part-time students across all faculties.

**Location:** 111 Central Square  
**Telephone:** (416) 736-5770  
**E-mail** [acmaps@yorku.ca](mailto:acmaps@yorku.ca)  
**Website:** [acmaps.info.yorku.ca](http://acmaps.info.yorku.ca)

York University Mature Students Organization (YUMSO) helps mature students adjust to and enjoy the back-to-school experience, offers mentorship and advice, and provides a communications network. Since the creation of ACMAPS, YUMSO has worked with the centre on events, advocacy, mentoring and more.

**Location:** 113B Vanier College  
**E-mail:** [yumso@yorku.ca](mailto:yumso@yorku.ca)

## **SPARK (Student Papers and Academic Research Kit)**

SPARK is your guide to successful academic papers and can help at any point in the preparation of your paper. It offers you 4 modules that focus on research, writing and learning and include examples, templates, videos and more. Each module is self-paced and takes 8-10 minutes to complete.

**Website:** [yorku.ca/spark](http://yorku.ca/spark)

## **Study Hub**

If you're finding school can be a struggle, you're not alone. If you're looking for help, this is the place. The Study Hub is here to connect you with information on:

- why students struggle academically
- where they get help

There are resources to help build your skills and your understanding. Check out free campus resources under "Free Help". If do-it-yourself study groups or fee-for-service tutoring are your interest, read on. We can help you connect, but also provide tips to get the most out of group or individual study sessions.

## **UPSA (Undergraduate Psychology Students Association)**

The Department of Psychology at York University is the largest one in North America. As a result, our undergraduate program is quite large. A student therefore may feel lost attending first and second-year classes with large numbers of students. The student-run organization UPSA is dedicated to giving students an opportunity to meet other students and faculty in the program, and to offering members information seminars and academic support to help them succeed. To learn more about UPSA or to join, visit the association office or website for details.

**Location:** 126B Calumet College.

**E-mail** [UPSA@yorku.ca](mailto:UPSA@yorku.ca)

**Website:** [upsaweb.wix.com/upsaweb](http://upsaweb.wix.com/upsaweb)

## **Writing Centre**

All Faculty of Health students enrolled in or working on assignments are eligible for the one-to-one writing support program (including face-to-face and online video chat).

**Location:** S311 Ross main reception

**Telephone:** 416-736-5134
