Note: All questions concerning the course should first be directed to a TA. If he or she cannot answer the question he or she will forward your email to the course director.

Course Prerequisite(s): Course prerequisites are strictly enforced

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.

Course Credit Exclusions
Please refer to York Courses Website for a listing of any course credit exclusions.

Course website: http://www.yorku.ca/npark/cognition_f_18/
Course Description
This course will examine a range of cognitive processes and will consider the experimental evidence that has helped to guide the development of theoretical formulations of how people perceive, understand, store, retrieve, and act on information. We will examine different conceptualizations of cognition and review experimental evidence from cognitively unimpaired and patient populations. Laboratory and/or classroom demonstrations will be conducted in order to clarify the methods, findings, and theories under discussion. During these demonstrations, students will act as research participants and may provide data for analysis.

The 3-hour class period will encompass some combination of lecture, activities, and breaks. Depending on the number of topics covered in a given lecture and the mood of the class, we will sometimes have a single 15-minute break in the middle; other times, there will be two 10-minute breaks.

Each class is intended to be interesting and enjoyable. Class attendance is important. The material in the lectures is challenging and your understanding of it will be made easier if you are there. Every two weeks, provided there is time, I will lead a review of material covered in the two most recent lectures. This review will help you prepare for the quiz that will held in the following week. Questions regarding material from the text book should be directed to the TA. If you miss a class it is your responsibility to find out what you missed and borrow notes from a fellow student.

Material presented in class--from lectures, films, and research demonstrations--will be included on the exams as will material from the required text and selected readings.

Program Learning Outcomes
Upon completion of this course, students should be able to:

1. Demonstrate broad knowledge of cognitive psychology.
2. Describe and evaluate current theory and research in cognitive psychology.
3. Understand and interpret principles of cognition in everyday life.
4. Define causes of human cognition from different perspectives.

Specific Learning Objectives
This course will review evidence from a variety of methodologies including from behavioural studies, studies from patients with neurological impairment, and neuroimaging experiments. The strengths and limitations of each of these methodologies will be reviewed.

Required Text

**Required Text:**

**Recommended Text:**
This book is not required, but it does provide interesting and useful supplementary information, some of which will be presented in class.

*Top 3 quiz grades count for 60%

Description of Assignments

There will be five quizzes held during the scheduled class sessions and a final exam held during the scheduled exam period. The quizzes and the final exam will consist of multiple-choice and short-answer questions. The five quizzes together count for 60% and the final counts for 40% of your final grade. Each quiz will last about 35 minutes and will test lecture material and readings from the previous two weeks. The final exam will cover all the course material. Your quiz grade will be calculated by determining the average of your three best scores from your quizzes (e.g., 60%, 80%, 70%, 0%, 55%); quiz grade = 70%). If you miss a quiz, you do not need to justify the reason for missing the quiz, and there will be no opportunity to write a makeup quiz. If you miss a quiz your grade for that quiz will be 0% so it is in your best interest to write all the quizzes. Please note that if you do not write any quizzes prior to the drop date, you will have waived your right to receive feedback on your performance in this course prior to the drop date. Students wishing to have their quizzes reviewed should contact their TA no later than one week after the last class of the term. Students should be aware that their grade may be unchanged or may be adjusted up or down.

Grading as per Senate Policy

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 90, B+ = 75 to 79, etc.)

(For a full description of York grading system see the York University Undergraduate Calendar - [Grading Scheme for 2018-19](#))
Late Work/Missed Tests or Exams

Students who miss a quiz do not need to document the reason for missing the quiz, and will receive a grade of 0%. That will not necessarily disadvantage the student because only top 3 quiz grades will be counted. However, it is in your best interest to write all the quizzes.

Students with a documented reason for missing the final exam, such as illness, compassionate grounds, etc., which is confirmed by supporting documentation (Attending Physician Statement which can be found at: http://myacademicrecord.students.yorku.ca/pdf/attending-physicians-statement.pdf may request accommodation from the Course Instructor. Further extensions or accommodation will require students to submit a formal petition to the Faculty.

Important New Information Regarding Missed Final Exam

For any missed tests or late assignments, students MUST complete the following online form which will be received and reviewed in the Psychology undergraduate office.

HH PSYC: Missed Tests/Exams Form. Failure to complete the form within 48 hours of the original deadline will result in a grade of zero for the test/assignment.

Add/Drop Deadlines

For a list of all important dates please refer to: Fall/Winter 2018-19 - Important Dates

<table>
<thead>
<tr>
<th></th>
<th>FALL (F)</th>
<th>YEAR (Y)</th>
<th>WINTER (W)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Last date to add a course <strong>without permission</strong> of instructor (also see Financial Deadlines)</td>
<td>Sept. 18</td>
<td>Sept. 18</td>
<td>Jan. 16</td>
</tr>
<tr>
<td>Last date to add a course <strong>with permission</strong> of instructor (also see Financial Deadlines)</td>
<td>Oct. 2</td>
<td>Oct. 23</td>
<td>Jan. 30</td>
</tr>
<tr>
<td>Drop deadline: Last date to drop a course without receiving a grade (also see Financial Deadlines)</td>
<td>Nov. 9</td>
<td>Feb. 8</td>
<td>March 8</td>
</tr>
<tr>
<td>Course Withdrawal Period (withdraw from a course and receive a grade of “W” on transcript – see note below)</td>
<td>Nov. 10 - Dec. 4</td>
<td>Feb. 9 - Apr. 3</td>
<td>March 9 - Apr. 3</td>
</tr>
</tbody>
</table>

*Note: You may withdraw from a course using the registration and enrolment system after the drop deadline until the last day of class for the term associated with the course. When you withdraw from a course, the course remains on your transcript without a grade and is notated as "W". The withdrawal will not affect your grade point average or count towards the credits required for your degree.

Electronic Device Policy

Students are permitted to use electronic devices in class in order to follow along the powerpoint slides that are on the course website.

Attendance Policy
Class attendance is important. Each session is intended to be interesting, challenging, and (hopefully) enjoyable for you. It is your own responsibility to find out what you missed. Thus, it is to your benefit to come to every class and to borrow notes from a fellow student when you do have to miss a class.

**Academic Integrity for Students**

York University takes academic integrity very seriously; please familiarize yourself with Information about the Senate Policy on Academic Honesty.

It is recommended that you review Academic Integrity by completing the Academic Integrity Tutorial and Academic Honesty Quiz.

**Test Banks**

The offering for sale of, buying of, and attempting to sell or buy test banks (banks of test questions and/or answers), or any course specific test questions/answers is not permitted in the Faculty of Health. Any student found to be doing this may be considered to have breached the Senate Policy on Academic Honesty. In particular, buying and attempting to sell banks of test questions and/or answers may be considered as “Cheating in an attempt to gain an improper advantage in an academic evaluation” (article 2.1.1 from the Senate Policy) and/or “encouraging, enabling or causing others” (article 2.1.10 from the Senate Policy) to cheat.

**Electronic Devices During a Test/Examination**

Electronic mobile devices of any kind are not allowed during a test or examination. Students are required to turn off and secure any electronic mobile device in their bag which is to be placed under the chair while a test/exam is in progress. Any student observed with an electronic devise during a test/exam may be reported to the Undergraduate Office for a potential breach of Academic Honesty.

**Academic Accommodation for Students with Disabilities**

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The York University Accessibility Hub is your online stop for accessibility on campus. The Accessibility Hub provides tools, assistance and resources. Policy Statement.

**Policy:** York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses. Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.
For Further Information please refer to: York university academic accommodation for students with disabilities policy.
