M to Z

Course Prerequisite(s): Course prerequisites are strictly enforced
- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- Completed at least 54 earned credits

Course Credit Exclusions
Please refer to York Courses Website for a listing of any course credit exclusions.

Course website: eClass: https://eclass.yorku.ca/eclass/my/
All course materials will be available on the course moodle site, unless otherwise indicated by the instructor. The site will be your central access point for course materials [you may add specific types of materials for your course as examples here].

Course Description
This course will explore the application of psychological theory and research to specific health issues. Coverage will include: general strategies of health promotion; health habits (e.g., smoking, substance abuse; weight control); pain; management of chronic and terminal illness; and, issues in heart disease, cancer, and AIDS. The focus will be on the role of psychological research and principles in the promotion and maintenance of health and in the understanding and prevention of disease.

Program Learning Outcomes
Upon completion of this course, students should be able to:
1. Demonstrate in-depth knowledge in health psychology.
2. Articulate trends in health psychology.
3. Express knowledge of health psychology in written form.
4. Describe and explain limits to generalizability of research findings in health psychology.
5. Demonstrate ability to relate information in health psychology to own and others’ life experiences.

Specific Learning Objectives

- Have a critical understanding of the role of biological, psychological and social factors in health and wellbeing.
- Understand how to think from a biopsychosocial perspective.
- Become familiar with current knowledge regarding many chronic and terminal illnesses.

Description of Assignments

Quizzes will be weekly, online, starting January 28th. There will be 12 quizzes. Each quiz is worth 2% and will have 10 MCQs. For example, if you receive 5/10 on a quiz, your grade is 1% (out of 2%). The best 10 grades will be kept, for a total of 20% weight. Quizzes will be open the day of class, from 6am to 11:59pm. The time limit is 10 minutes. Quizzes will be on Connect. There are no makeup quizzes and no extensions.

Exams will be multiple choice and will take place online on Connect. Exams #1 and #2 will take place during class time. Exam #3 will take place during the final exam period at a date and time determined by the department of Psychology. Exams will require the free Chrome extension Proctorio, which is an exam proctoring software. More information will be provided on exams during the semester, including details about Proctorio.
The Health Behaviour Report is a take-home assignment. Instructions will be shared later in the semester.

**Grading as per Senate Policy**

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 89, B+ = 75 to 79, etc.)

For a full description of York grading system see the York University Undergraduate Calendar - [Grading Scheme for 2020-21](#).

**Missed Tests/Midterm Exams/Late Assignment:**

For any missed exam, students MUST complete the following online form which will be received and reviewed in the Psychology undergraduate office. At this time, due to COVID-19 an Attending Physician’s Statement (APS) is not required, however, a reason for missing an evaluated component in the course must be provided.

[HH PSYC: Missed Tests/Exams Form](#). Failure to complete the form within 48 hours of the original deadline will result in a grade of zero for the missed exam.

Late assignments (i.e., the health behaviour report) will be deducted 10% per day, and will receive a zero if it is more than two days late. If you have a valid reason for requiring an extension, contact your TA before the due date.

**Students with Accommodations** need to contact their TA to make the arrangements they require.

**Add/Drop Deadlines**

For a list of all important dates please refer to: [Fall/Winter 2020-21 Important Dates](#)

<table>

</tr>
</tbody>
</table>

**Add and Drop Deadline Information**
There are deadlines for adding and dropping courses, both academic and financial. Since, for the most part, the dates are different, be sure to read the information carefully so that you understand the differences between the sessonal dates below and the Refund Tables.

You are strongly advised to pay close attention to the "Last date to enrol without permission of course instructor" deadlines. These deadlines represent the last date students have unrestricted access to the registration and enrolment system.

After that date, you must contact the professor/department offering the course to arrange permission.

You can drop courses using the registration and enrolment system up until the last date to drop a course without receiving a grade (drop deadline).

You may withdraw from a course using the registration and enrolment system after the drop deadline until the last day of class for the term associated with the course. When you withdraw from a course, the course remains on your transcript without a grade and is notated as 'W'. The withdrawal will not affect your grade point average or count towards the credits required for your degree.

**Electronic Device Policy**

This course will be delivered in an online format and therefore electronic devices (e.g., tablets, laptops) are permitted during class time for course-related purposes. It is expected that you would complete tests/exams in a manner that does not require consulting an unauthorised source during an examination unless the tests/exams are open-book.

**Academic Integrity for Students**

York University takes academic integrity very seriously; please familiarize yourself with Information about the Senate Policy on Academic Honesty.

It is recommended that you review Academic Integrity by completing the Academic Integrity Tutorial and Academic Honesty Quiz.

**Test Banks**

The offering for sale of, buying of, and attempting to sell or buy test banks (banks of test questions and/or answers), or any course specific test questions/answers is not permitted in the Faculty of Health. Any student found to be doing this may be considered to have breached the Senate Policy on Academic Honesty. In particular, buying and attempting to sell banks of test questions and/or answers may be considered as “Cheating in an attempt to gain an improper advantage in an academic evaluation” (article 2.1.1 from the Senate Policy) and/or “encouraging, enabling or causing others” (article 2.1.10 from the Senate Policy) to cheat.

**Academic Accommodation for Students with Disabilities**
While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The university encourages students with disabilities to register with **Student Accessibility Services (SAS)** to discuss their accommodation needs as early as possible in the term to establish the recommended academic accommodations that will be communicated to Course Directors as necessary. **Please let me know as early as possible in the term if you anticipate requiring academic accommodation so that we can discuss how to consider your accommodation needs within the context of this course.**

[https://accessibility.students.yorku.ca/](https://accessibility.students.yorku.ca/)

**Excerpt from Senate Policy on Academic Accommodation for Students with Disabilities:**

1. Pursuant to its commitment to sustaining an inclusive, equitable community in which all members are treated with respect and dignity, and consistent with applicable accessibility legislation, York University shall make reasonable and appropriate accommodations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs. This policy aims to eliminate systemic barriers to participation in academic activities by students with disabilities.

All students are expected to satisfy the essential learning outcomes of courses. Accommodations shall be consistent with, support and preserve the academic integrity of the curriculum and the academic standards of courses and programs. For further information please refer to: [York University Academic Accommodation for Students with Disabilities Policy](https://accessibility.students.yorku.ca/).
